NOTICE OF VIOLATION

Released: August 5, 2011

By the District Director, Columbia Office, Northeast Region, Enforcement Bureau:

1. This is a Notice of Violation ("Notice") issued pursuant to section 1.89 of the Commission's Rules¹ to Redi-Call Communications Company ("Redi-Call"), licensee of radio station KUS359 in Georgetown, Delaware.

2. On July 27, 2011, an agent of the Enforcement Bureau's Columbia Office investigated a complaint of interference from the Federal Aviation Administration to frequencies in the aviation band affecting flight operations on the east coast. Using mobile direction finding techniques, the agent located the source of the interference to a paging transmitter located at the Dorchester Memorial Hospital in Cambridge, Maryland. The agent observed the following violation:

47 C.F.R. § 1.903(a): "Stations in the Wireless Radio Service must be used and operated only in accordance with the rules applicable to their particular service as set forth in this title and with a valid authorization granted by the Commission under the provisions of this part, except as specified in the Section 1.903(b)." At the time of the investigation, the transmitter owned and operated by Redi-Call was emitting a spurious signal on 132.950 MHz, a frequency not authorized by the KUS359 license.

3. Pursuant to section 403 of the Communications Act of 1934, as amended,² and section 1.89 of the Commission's Rules, Redi-Call must submit a written statement concerning this matter within 20 days of release of this Notice. The response must fully explain each violation, must contain a statement of the specific action(s) taken to correct each violation and preclude recurrence, and should include a time line for completion of pending corrective action(s). The response must be complete in itself and signed by a principal or an officer of Redi-Call. All replies and documentation sent in response

¹ 47 C.F.R. § 1.89.

² 47 U.S.C. § 403.
